**NOTES TO FINANCIAL STATEMENTS****1. Agency Information and Authorization for Issue of the Financial Statements**

The District was created pursuant to Presidential Decree No. 198, otherwise known as the "Local Water Utilities Act of 1973", as amended by PD Nos. 768 and 1479, and by virtue of the Local Sangguniang Bayan Resolution No. 011 series of 1988. On July 6, 1989, the Conditional Certificate of Conformance (CCC) No. 407 was issued by Local Water Utilities Administration (LWUA) to formalize its establishment. This CCC is the accreditation of LWUA to a newly-formed water district to operate under the standard specification.

Since 1992, by virtue of the Supreme Court En Banc decision, GR No. 95237-38 (Davao City Water District, et al. vs. CSC et al.), water districts were declared government owned and/or controlled corporation with original charter, and as such they are placed under the jurisdiction of the Civil Service Commission and Commission on Audit.

As of December 31, 2019, the District has 24 pumping stations which serve 27 barangays with 32,477 total active service connections. The District is categorized as Category "A" water district pursuant to the Local Water District Manual on Re-categorization in March 2017.

The District was formed for the purpose of acquiring, installing, improving, maintaining and operating water supply and distribution system for the residents of Baliwag, Bulacan.

The District's Board of Directors is composed of the following:

Name	Position/Designation	Sector
Ms. Maria Manolita C. Cruz	Chairman	Civic
Mr. Conrado E. Evangelista	Vice-Chairman	Education
Ms. Hazel M. Galang	Secretary	Women
Ms. Victoria G. Canaza	Treasurer	Professional
Mr. Florido S. Santos	Member	Business

The District has 159 personnel and headed by General Manager Artemio F. Baylosis.

**1.1 Authorization for Issue of the 2019 Financial Statements**

The financial statements of the District for the year ended December 31, 2019 were authorized for issue by the Board of Directors on February 11, 2020 as reflected in the Statement of Management's Responsibility for Financial Statements signed by the BOD Chairman.

## **2. Summary of Significant Accounting Systems and Policies**

### **2.1 Basis of Financial Statements Presentation**

The financial statements of the District have been prepared using historical cost basis. The financial statements are presented in Philippine Peso (₱), which is the District's functional and presentation currency. All values are rounded off to two decimal places, except when otherwise indicated.

For the year ended December 31, 2019, the District prepared its financial statements (FS) in accordance with generally accepted accounting principle in the Philippines and Philippine Financial Reporting Standards (PFRS).

### **2.2 Statement of Compliance**

The financial statements were prepared in compliance with PFRS, which includes statements named PFRS, Philippine Accounting Standards (PAS), Philippine Interpretations of International Financial Reporting Interpretations Committee (IFRIC) issued by the Financial Reporting Standards Council and Revised Chart of Accounts (RCA) for Government Corporations prescribed in COA Circular Nos. 2015-010 and 2016-006 dated December 1, 2015 and December 29, 2016, respectively.

### **2.3 Summary of Significant Accounting Policies**

The significant accounting policies that have been used in the preparation of the District's financial statements are summarized below.

#### **2.3.1 Current versus Noncurrent Classification**

The District presents assets and liabilities in the statement of financial position based on current or noncurrent classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when it is:

- Expected to be settled in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The District classifies all other liabilities as noncurrent.

### 2.3.2 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the District. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The District uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the District determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the District has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

### 2.3.3 Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash in bank earns interest at the prevailing bank deposit rates. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of acquisition and that are subject to an insignificant risk of change in value.

### 2.3.4 Financial Instruments

#### *Date of recognition*

The District recognizes a financial asset or a financial liability in the statement of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting.

#### *Initial recognition of financial instruments*

Financial instruments are initially recognized at fair value, which is the fair value of the consideration given (in case of a financial asset) or received (in case of a financial liability). Except for securities at Fair Value through Profit or Loss (FVPL), the initial measurement of financial instruments includes transaction costs.

The District classifies its financial instruments in the following categories: financial assets and financial liabilities at FVPL, loans and receivables, held-to-maturity (HTM) investments, available for sale (AFS) financial assets and other financial liabilities. The classification depends on the purpose for which the investments were acquired and whether these are quoted in an active market. Management determines the classification at initial recognition and, where allowed and appropriate, reevaluates this classification at every reporting date.

As at December 31, 2019 and 2018, the District does not have financial assets and financial liabilities at FVPL, HTM investments, and AFS.

#### *Loans and Receivables*

Loans and receivables are financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. These are not entered into with the intention of immediate or short-term resale and are not designated as AFS financial assets or financial assets at FVPL. These are included in current assets if maturity is within twelve months from the reporting date. Otherwise, these are classified as noncurrent assets.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest rate method, less allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortization is included in "Interest income" in profit or loss. The losses arising from

impairment of such loans and receivables are recognized as “Provision for probable losses and doubtful accounts” in profit or loss.

As at December 31, 2019 and 2018, this category includes the District’s Receivables account.

#### *Financial Liabilities Measured at Amortized Cost*

These are the financial liabilities which are not designated at FVPL. Financial liabilities not designated as FVPL are measured at amortized cost after initial measurement using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate.

Included in this category are the District’s accounts payable, accrued expenses, inter-agency payables, loans payable, other payables and guarantee deposits payable to customers.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. The amortization is included in the interest expense in the District’s Statement of Comprehensive Income.

#### 2.3.5 Derecognition of Financial Assets and Financial Liabilities

##### *Financial assets*

A financial asset (or, where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when:

- The right to receive cash flows from the asset has expired;
- The District retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- The District has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risks and rewards of the asset but has transferred the control of the asset.

When the District has transferred its right to receive cash flows from an asset or has entered into a “pass-through” arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the District’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the District could be required to repay.

##### *Financial liabilities*

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired.

When an existing financial liability is replaced by another financial liability from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

#### *Loans and receivables*

For loans and receivables carried at amortized cost, the District first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the District determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assessed for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized, are not included in a collective assessment for impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through use of an allowance account and the amount of loss is charged to profit or loss. Interest income continues to be recognized based on the original effective interest rate of the asset. Receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

#### 2.3.6 Impairment of Financial Assets

The District assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Objective evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic condition

that correlate with default. For the District's receivables from customers, evidence of impairment may include non-collection of water bills despite of sending series of demand letters to delinquent concessionaires.

As at December 31, 2019 and 2018, the District has no impaired financial assets.

#### 2.3.7 Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### 2.3.8 Classification of Financial Instruments between Debt and Equity

A financial instrument is classified as debt if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity; or
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the District; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the District does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

#### 2.3.9 Inventories

Inventories are valued at the lower of cost or net realizable value (NRV). Cost is determined using the moving average method.

Inventories are recognized as an expense when deployed for the utilization or consumption in the ordinary course of operations of the District.

#### 2.3.10 Property, Plant and Equipment (PPE)

PPE, except land, are stated at cost less accumulated depreciation and amortization and any impairment in value. Land is stated at cost less any impairment in value.

The initial cost of PPE comprises its purchase price, including import duties, taxes and any directly attributable costs of bringing the PPE to its working condition and location for its intended use, including capitalized borrowing costs incurred during the construction period.

Expenditures incurred after the PPE have been put into operation, such as repairs and maintenance, are normally charged to operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from

the use of an item of PPE beyond its originally assessed standard of performance, the expenditures are capitalized as additional cost of the related PPE.

Depreciation and amortization of PPE commences once the PPE are available for use and are calculated on a straight-line basis over the estimated useful lives (EUL) of the PPE as follows:

<u>Category</u>	<u>Number of years</u>
Office furniture and equipment	5
Transportation equipment	7
Machinery and equipment	10
Building and other structures	30

The EUL and depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of PPE.

Fully depreciated PPE are retained in the accounts until they are no longer in use and no further depreciation are charged to current operations.

When PPE is retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and accumulated impairment, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

#### *Recognition*

An item is recognized as PPE if it meets the characteristics and recognition criteria as a PPE. The characteristics of PPE are as follows:

- Tangible items;
- Are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- Are expected to be used during more than one reporting period.

An item of PPE is recognized as an asset if:

- It is probable that future economic benefits or service potential associated with the item will flow to the entity;
- The cost or fair value of the item can be measured reliably; and
- The cost is at least ₱15,000.00.

#### *Measurement at recognition*

An item recognized as PPE is measured at cost. Cost includes the following:

- Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- Expenditure that is directly attributable to the acquisition of the items; and

- Initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired, or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

#### *Measurement after recognition*

After recognition, all PPE are stated at cost less accumulated depreciation and impairment losses.

When significant parts of PPE are required to be replaced at intervals, the District recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major repair/replacement is done, its cost is recognized in the carrying amount of the PPE as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized as expense in surplus or deficit as incurred.

#### *Depreciation*

Each part of an item of PPE with a cost that is significant in relation to the total cost of the item is depreciated separately. The depreciation charge for each period is recognized as expense unless it is included in the cost of another asset.

#### *Initial recognition of depreciation*

Depreciation of an asset begins when it is available for use such as when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. For simplicity and to avoid proportionate computation, the depreciation is for one month if the PPE is available for use on or before the 15th of the month. However, if the PPE is available for use after the 15th of the month, depreciation is for the succeeding month.

#### *Depreciation method*

The straight line method of depreciation is adopted unless another method is more appropriate for Entity operation.

#### *Estimated useful life*

The District uses the life span of PPE prescribed by COA in determining the specific estimated useful life for each asset based on its experience.

#### *Residual value*

The District uses a residual value equivalent to at least ten percent (10%) of the cost of the PPE.

### *Impairment*

An asset's carrying amount is written down to its recoverable amount, or recoverable service amount, if the asset's carrying amount is greater than its estimated recoverable amount or recoverable service amount.

### *Derecognition*

The District derecognizes items of PPE and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

#### 2.3.11 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is recognized in the statement of profit or loss when it is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit (CGU) level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

#### 2.3.12 Impairment of Non-Financial Assets

The District assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an

asset is required, the District estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. In determining fair value less cost to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other fair value indicators. Impairment losses of continuing operations are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as revaluation increase. After such a reversal, the depreciation and amortization charge are adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

As at December 31, 2019 and 2018, the District has no reported impaired non-financial assets.

#### 2.3.13 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the District and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

#### 2.3.14 Income from Waterworks System

Water revenue are recognized when the related water services are rendered. Water is billed every month according to the bill cycles of the customers. As a result of bill cycle cut-off, monthly service revenue earned but not yet billed at end of the month are estimated and accrued. These estimates are based on historical consumption of the customers.

For the period ending December 31, 2019 and 2018, Income from Waterworks System was classified under Business Income in the Statement of Comprehensive Income.

#### 2.3.15 Fines and Penalties not related to taxes

The District recognizes revenue from fees and fines, except those related to taxes, when earned and the asset recognition criteria are met. Deferred income is recognized instead of revenue if there is a related condition attached that would give rise to a liability to repay the amount.

The District charges fines and penalties to customers when there is a delay in the payment of water bill. A penalty of 10% of the water bill is automatically charged by the Billing and Collection System the day following the due date.

For the period ending December 31, 2019 and 2018, Fines and Penalties was classified under Business Income in the Statement of Comprehensive Income.

#### 2.3.16 Other Business Income

Other customer related fees such as connection, reconnection and disconnection fees are recognized when these services have been rendered.

#### 2.3.17 Interest Income

Interest income is recognized as it accrues, taking into account the effective yield of the assets.

#### 2.3.18 Cost of Services and Operating Expenses

Cost of services and operating expenses are recognized as they are incurred. Cost and expenses are recognized in the profit or loss when a decrease in future economic benefit related to a decrease of an asset or an increase of a liability has arisen other than distributions to equity participants that can be measured reliably. Cost and expenses are recognized in the profit or loss on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or immediately when expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, cease to qualify, for recognition in the statement of financial position as an asset.

For the period ending December 31, 2019 and 2018, cost of services and operating expenses includes personnel services, maintenance and other operating expenses, financial expenses and non-cash expenses.

### 2.3.19 Income Tax

#### *Current tax*

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as of the reporting date.

#### *Deferred tax*

Deferred tax is provided, using the liability method, for all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

A deferred tax asset shall be recognized for all deductible temporary differences and operating loss carry forward when it is probable that taxable profit will be available against which the deductible temporary difference can be utilized. (PAS12.24)

Pursuant to Presidential Decree 198, under section 14 - Department of Justice ruling under case no. OSJ-2005-03 states that the Water Districts are exempted from Income tax and only liable to two percent (2%) Franchise Tax on its gross receipts. Recognition of deferred tax is not applicable as stated above.

### 2.3.20 Provisions and Contingencies

#### *Provisions*

A provision is recognized when the District has: (a) a present obligation (legal or constructive) as a result of a past event; (b) it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense. When the District expects a provision to be reimbursed, the reimbursement is not recognized as a separate asset but only when the reimbursement is virtually certain. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

#### *Contingencies*

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

### 2.3.21 Employee Benefits

The employees of the District are members of the Government Service Insurance System (GSIS), which provides life and retirement insurance coverage. Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees.

The District recognizes the undiscounted amount of short term employee benefits, like salaries, wages, bonuses, allowance, etc., as expense unless capitalized, and as a liability after deducting the amount paid.

### **3. Significant Accounting Judgments, Estimates and Assumptions**

The preparation of the District's financial statements in compliance with PFRS requires Management to make judgments, estimates and assumptions that affect the amounts reported and disclosure in the financial statements and the related notes. Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under circumstances. Actual results could differ from those estimates, and such, will be adjusted accordingly.

The District believes the following represent a summary of these significant judgments, estimates and assumptions, and the related impact and associated risks in the financial statements.

#### 3.1 Judgments

In the process of applying the District's accounting policies, Management has made the following judgments, apart from those involving estimations, which has the most significant effect on the amounts recognized in the financial statements.

##### *Determination of impairment of non-financial asset*

The District assesses the impairment of non-financial assets (PPE, other current assets, and other noncurrent assets) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the District considers important which could trigger an impairment review include the following:

- Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of usage of the acquired assets or the strategy for the District's overall business; and
- Significant negative industry or economic trends.

In 2019 and 2018, the District has not identified any impairment indicator, thus, no impairment was recognized.

### 3.2 Estimates and Assumptions

Key assumptions concerning the future and other sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

#### *Determination of impairment of receivables*

The District reviews its receivables at each reporting date to assess whether provision for doubtful accounts should be recorded in profit or loss. The District maintains an allowance for impairment - accounts receivable based on the results of the individual and collective impairment assessments under PAS 39. Allowance for impairment - accounts receivable is maintained at a level considered adequate to provide for potentially uncollectible receivables. The level of allowance is based on past collection experience and other factors that may affect collectability. These factors include, but not limited to, age and status of receivables, the concessionaire's payment behavior and known market factors. An evaluation of receivables, designed to identify potential charges to the allowance is performed on a continuous basis throughout the year.

The District computes the Allowance for Impairment-Accounts Receivable based on the aging of receivables.

#### *Determination of estimated useful lives of PPE*

The useful life of each of the District's item of PPE is estimated based on the period over which the asset is expected to provide economic benefits. Such estimation is based on a collective assessment of similar business, internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any item of PPE would increase the recorded depreciation expense and decrease the carrying value of PPE.

### 4. **Cash and Cash Equivalents**

This account pertains to cash collecting officers, petty cash and cash in bank readily available in the payment of current obligations of the District and not subject to any restriction, contractual or otherwise. This consists of the following balance.

	<b>2019</b>	<b>2018</b>
Cash – Collecting Officers	₱2,544,117.72	₱730,939.32
Petty Cash	50,000.00	19,000.00
Cash in Bank – Local Currency		
Current Account	9,086,438.93	1,764,107.93
Savings Account	5,781,765.55	5,953,130.28

	2019	2018
<b>Total Cash and Cash Equivalents</b>	<b>₱17,462,322.20</b>	<b>₱8,467,177.53</b>

The balance of Cash in Bank – Local Currency, Current Account includes the cost of two unreleased checks totalling ₱37,806.56 which were not reverted as of year-end. These check were received by the concerned payees on January 02, 2020.

#### 5. Receivables, Net

This includes all amounts due on open accounts arising from services rendered to the customers for water sales and incidental services.

	2019	2018
Accounts Receivable (AR)	₱12,549,624.17	₱11,501,641.65
Allowance for Impairment – AR	(1,254,962.42)	(1,150,164.17)
Notes Receivable	1,514,885.55	1,593,137.41
Due from LGUs	6,176,019.32	6,142,590.57
Receivables – Disallowances/Charges	264.74	15,328.10
Other Receivables	64,123.73	0.00
<b>Receivables, Net</b>	<b>₱19,049,955.09</b>	<b>₱18,102,533.56</b>

Below is the aging of AR:

Age of AR	2019	2018
1 – 60 days	₱ 7,197,944.22	₱ 6,473,072.61
61 – 120 days	570,726.96	571,269.69
121 days – 1 year	675,182.40	777,064.19
over 1 year	4,105,770.59	3,680,235.16
<b>Total AR</b>	<b>₱12,549,624.17</b>	<b>₱11,501,641.65</b>

#### 6. Inventories

This account pertains to unissued materials and supplies, which are kept in stock and held for future use.

	2019	2018
Office Supplies Inventory	₱ 258,242.74	₱ 303,631.76
Accountable Forms, Plates and Stickers Inventory	1,013,800.00	1,187,050.00
Chemical and Filtering Supplies Inventory	474,447.00	320,280.00
Construction Materials Inventory	7,185,404.11	5,465,164.67
<b>Total Inventories</b>	<b>₱ 8,931,893.85</b>	<b>₱ 7,276,126.43</b>

## 7. Other Assets

This represents the unliquidated cash advances granted to officials and employees of the District, meter and bill deposits to Manila Electric Company (MERALCO) and bond deposits to Department of Public Works and Highways (DPWH).

	2019	2018
Advances for Operating Expenses	P 0.00	P 20,661.00
Advances to Special Disbursing Officer	0.00	193,100.00
Advances to Officers and Employees	0.00	222,124.67
Other Deposits	2,907,339.70	3,058,802.98
Other Assets	3,804,643.76	0.00
<b>Total Other Assets</b>	<b>P6,711,983.46</b>	<b>P3,494,688.65</b>

## 8. Investments in Time Deposits – Local Currency

This account is used to recognize authorized placements of cash in local currency with Authorized Government Depository Banks for a period of 91 days or more

	2019	2018
Investments in Time Deposits – Local Currency	P 716,259.29	P 712,096.76
<b>Total Investments in Time Deposits – Local Currency</b>	<b>P 716,259.29</b>	<b>P 712,096.76</b>

## 9. Property, Plant and Equipment (PPE), Net

This includes all properties of relatively permanent character that are used in normal operations of the District. The breakdown of this account is as follows:

PPE Account	CY 2019					PPE, Net
	Balance at January 1	Additions/ Acquisitions	Disposals/ Reclassification	Accumulated Depreciation		
Land	P 17,487,546.76	P 0.00	P 0.00	P 0.00	P 17,487,546.76	
Other Land Improvements	1,654,130.00	0.00	0.00	0.00	1,654,130.00	
Water Supply Systems	431,886,560.80	17,385,235.17	(43,505,380.04)	161,687,561.00	244,078,854.93	
Buildings	74,574,003.04	35,497,777.39	0.00	29,400,227.60	80,671,552.83	
Machinery and Equipment	54,992,716.70	2,923,838.00	(19,100.00)	38,078,352.74	19,819,101.96	
Motor Vehicles	26,612,691.90	379,006.00	(901,000.00)	12,361,857.99	13,728,839.91

<b>Total</b>	<b>₱599,399,836.78</b>	<b>₱32,086,344.15</b>	<b>(₱13,481,311.66)</b>	<b>₱246,014,628.99</b>	<b>₱371,990,240.28</b>	

The Land account as of CY 2019 under the possession of the District pertained to the following:

Land	Qty.	Lot Area	Acquisition Cost		Total
			Through Purchase	Through Donation	
With Transfer Certificate of Title (TCT)	14	6,402	₱12,635,450.00	₱2,245,748.76	₱14,881,198.76
Without TCT	2	835.82	2,606,348.00	0.00	2,606,348.00
<b>Total Land</b>	<b>16</b>	<b>7,237.82</b>	<b>₱15,241,798.00</b>	<b>₱2,245,748.76</b>	<b>₱17,487,546.76</b>

The following information pertain to the two parcels of land which have no TCT yet:

**1. Barangay San Jose**

- The lot located in Barangay San Jose, Baliuag, Bulacan was purchased thru installment basis from Mr. Wilfredo L. Santiago;
- A Deed of Conditional Sale was executed by and between the District and Mr. Santiago on October 11, 2012; and
- Among the terms and conditions stated in the Deed of Conditional Sale was that a Deed of Absolute Sale in favor of the District will be executed only when the total amount of ₱2,262,000.00 had already been fully paid.

**2. Barangay Tibag**

The Deed of Sale for Barangay Tibag was misplaced and only a subdivision plan was found. The District have already sought the help of the Register of Deeds.

The Management exerts effort to secure the covering TCTs on the above parcels of land to protect the District's interest and in order to document the absolute ownership thereon.

## 10. Financial Liabilities

This account includes long-term obligations of the District and amounts payable to the suppliers, as shown below.

	2019	2018
<b>Current</b>		
Accounts Payable	₱3,082,362.47	₱2,322,320.04
Loans Payable – Domestic		
LWUA	1,225,076.00	1,128,946.00
LBP	17,655,644.76	19,655,644.80
Vehicle Loan	367,558.86	404,671.15
<b>Total Financial Liabilities – Current</b>	<b>22,330,642.09</b>	<b>23,511,581.99</b>
<b>Non-Current</b>		
Loans Payable – Domestic		
LWUA	1,492,848.65	2,717,924.65
LBP	103,515,249.45	121,170,894.01
Vehicle Loan	0.00	367,558.86
<b>Total Financial Liabilities – Non Current</b>	<b>105,008,098.10</b>	<b>124,256,377.52</b>
<b>Total Financial Liabilities</b>	<b>₱127,338,740.19</b>	<b>₱147,767,959.51</b>

Loans Payable represents the long-term obligations of the District, the proceeds of which were used to finance various infrastructures and permanent improvements in order to meet the demands of the growing clientele. Repayments are made monthly based on the agreed terms and schedule provided in the loan agreement.

## 11. Inter-Agency Payables

This represents contributions due, collections received, amounts withheld for remittance to the following government agencies.

	2019	2018
<b>Current</b>		
Due to BIR	₱1,742,693.09	₱1,538,806.98
Due to GSIS	1,135,654.07	1,010,003.94
Due to Pag-IBIG	169,032.43	115,338.65
Due to Philhealth	86,185.63	75,148.26
Due to Others	0.00	0.00
<b>Total Inter – Agency Payables – Current</b>	<b>3,133,565.22</b>	<b>2,739,297.83</b>
<b>Non – Current</b>		
Due to LGUs	3,420,845.00	3,420,845.00
<b>Total Inter – Agency Payables – Non – Current</b>	<b>3,420,845.00</b>	<b>3,420,845.00</b>
<b>Total Inter – Agency Payables</b>	<b>₱6,554,410.22</b>	<b>₱6,160,142.83</b>

Due to LGUs pertains to the waterworks facilities transferred by the Municipality of Baliwag which were managed, operated by and under the control of the District.

These properties will be offset in lieu of the water consumed by the LGU as agreed upon by both parties.

## 12. Trust Liabilities

These are guarantee deposits from supplier and advance payment of water bill from concessionaires.

	2019	2018
Trust Liabilities	P 30,435.63	P 0.00
Guaranty/Security Deposits Payable	4,520,277.38	4,644,771.13
Customers' Deposits Payable	360,500.06	195,241.24
<b>Total Trust Liabilities</b>	<b>P4,911,213.07</b>	<b>P4,840,012.37</b>

## 13. Other Deferred Credits

This account is used to recognize other transactions not falling under any of the specific deferred credits accounts. It include proceeds from loan availments, payment of resigned employees' loan amortization to LBP and sale of materials.

	2019	2018
Other Deferred Credits	P3,912,671.33	P960,308.55
<b>Total Other Deferred Credits</b>	<b>P3,912,671.33</b>	<b>P960,308.55</b>

## 14. Leave Benefits Payable

This account is used to recognize accrual of money value of the earned leave credits of government personnel.

	2019	2018
Leave Benefits Payable	P19,625,306.75	P15,612,050.69
<b>Total Leave Benefits Payable</b>	<b>P19,625,306.75</b>	<b>P15,612,050.69</b>

## 15. Other Payables

This account is used to recognize other liabilities not falling under any of the specific payable accounts such as Provident Fund Employers' Shares, Provident Fund Personal Shares and Loans, Rice Allowance and Other Suppliers.

	2019	2018
Other Payables	P17,510,715.22	P19,393,619.71
<b>Total Other Payables</b>	<b>P17,510,715.22</b>	<b>P19,393,619.71</b>

## 16. Business Income

These are the water sales, interest income, penalty charges for late payments and violation, new connection fees and septage fees generated by the District from its concessionaires.

	2019	2018
Waterworks System Fees	₱205,697,528.22	₱192,228,738.11
Interest Income	16,558.65	13,422.83
Fines and Penalties – Business Income	8,126,880.75	7,477,749.13
Other Business Income	13,759,005.75	12,907,283.50
<b>Total Business Income</b>	<b>₱227,599,973.37</b>	<b>₱212,627,193.57</b>

## 17. Total Other Gains

These are proceeds from materials purchased by concessionaires to the District.

	2019	2018
