FINANCIAL AUDIT REPORT

on the

BALIWAG WATER DISTRICT Baliwag, Bulacan

For the Year Ended December 31, 2022

REPUBLIC OF THE PHILIPPINES
COMMISSION ON AUDIT
REGIONAL OFFICE NO. III
City of San Fernando, Pampanga

February 17, 2023

MR. FLORIDO S. SANTOS
Chairperson of the Board of Directors
Baliwag Water District
Baliwag, Bulacan

Dear **Chairperson Santos**:

We are pleased to transmit the Financial Audit Report on the audit of the Baliwag Water District, Baliwag, Bulacan for the Calendar Year 2022 in compliance with Section 43 of the Government Auditing Code of the Philippines (PD No. 1445). The audit was conducted in accordance with International Standards of Supreme Audit Institutions and we believe that it provided a reasonable basis for the results of our audit.

The audit was conducted to (a) ascertain the degree of reliance that may be placed on Management's assertions on the financial statements; (b) recommend agency improvement opportunities; and (c) determine the extent of implementation of prior year's audit recommendations.

We rendered a qualified opinion on the fairness of presentation of the financial statements.

The audit report consists of Part I – Audited Financial Statements, Part II – Audit Observations and Recommendations and Part III – Status of Implementation of Prior Year's Unimplemented Audit Recommendations.

The audit observations and recommendations were discussed with concerned officials of the District in the exit conference that was held on February 10, 2023. Management's comments were incorporated in the report, where appropriate.

We request that a status report, thru accomplishing the attached **Agency Action Plan and Status of Implementation (AAPSI)** form, on the actions taken on the audit recommendations be submitted within 60 days from receipt of this report, pursuant to Section 97 of the General Provisions of the General Appropriations Act for FY 2022.

We appreciate the invaluable support and cooperation extended by the officials and staff of the District during the audit engagement.

Very truly yours,

OMAR S. ROQUE
Regional Director

Mr. OSCAR G. JACINTO, JR.
OIC-Supervising Auditor
Water Districts Audit Group
This Region

Sir:

We are pleased to submit herewith the Financial Audit Report on the audit of the Baliwag Water District, Baliwag, Bulacan for the Calendar Year 2022 in compliance with Section 43 of the Government Auditing Code of the Philippines (PD No. 1445).

The audit was conducted to (a) ascertain the degree of reliance that may be placed on Management's assertions on the financial statements; (b) recommend agency improvement opportunities; and (c) determine the extent of implementation of prior year's audit recommendations.

The audit report consists of Part I – Audited Financial Statements, Part II – Audit Observations and Recommendations and Part III – Status of Implementation of Prior Year's Unimplemented Audit Recommendations. The Audit Observations and Recommendations were discussed with the officials concerned in the exit conference that was held on February 10, 2023.

We conducted our audit in accordance with International Standards of Supreme Audit Institutions and we believe that it provided a reasonable basis for the results of our audit.

We acknowledge the invaluable support and cooperation extended by the officials and staff of the District.

Very truly yours,

CHARLIE C. ADONA
OIC-Audit Team Leader

EXECUTIVE SUMMARY

A. INTRODUCTION

The District was created pursuant to Presidential Decree No. 198, otherwise known as the “Local Water Utilities Act of 1973”, as amended by PD-Nos. 768 and 1479, and by virtue of the Local Sangguniang Bayan Resolution No. 011 series of 1988. On July 6, 1989, the Conditional Certificate of Conformance (CCC) No. 407 was issued by Local Water Utilities Administration (LWUA) to formalize its establishment. This CCC is the accreditation of LWUA to a newly-formed water district to operate under the standard specification.

In 1992, by virtue of the Supreme Court En Banc decision, GR No. 95237-38 (Davao City Water District, et al. vs. CSC et al.), water districts were declared government owned and/or controlled corporation with original charter, and as such they are placed under the jurisdiction of the Civil Service Commission and Commission on Audit.

As of December 31, 2022, the District has 28 pumping stations which serve 27 barangays with 35,696 total active service connections. The District is categorized as Category “A” water district pursuant to the Local Water District Manual on Re-categorization in March 2017.

The District was formed for the purpose of acquiring, installing, improving, maintaining and operating water supply and distribution system for the residents of Baliwag, Bulacan.

As of December 31, 2022, the District's Board of Directors is composed of the following:

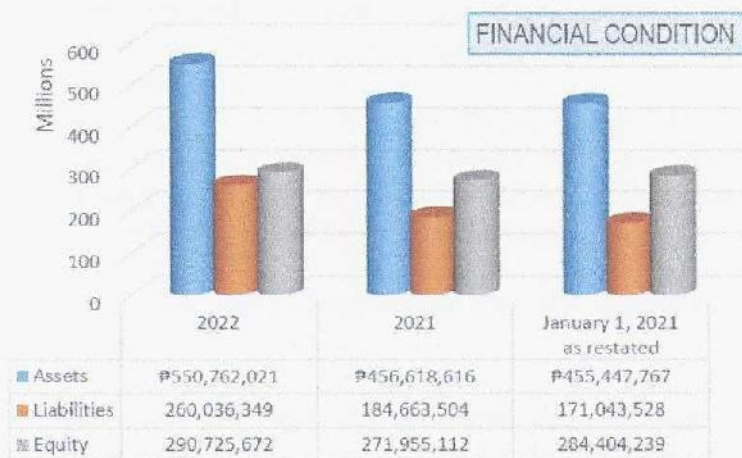

Name	Position/Designation	Sector
Ms. Victoria G. Canaza	Chairperson	Professional
Mr. Florido S. Santos	Vice-Chairperson	Business
Ms. Jacqueline D. Samson	Secretary	Civic
Ms. Hazel M. Galang	Member	Women
Mr. Conrado E. Evangelista	Member	Education

Mr. Florido S. Santos was elected as the new Chairperson of the Board of Directors effective February 1, 2023.

The District has 144 permanent employees, eight casual employees, 15 job order personnel and one co-terminus employee under the stewardship of Engr. Ma. Victoria E. Signo as General Manager.

B. FINANCIAL HIGHLIGHTS

The comparative figures of the District's financial condition for CYs 2022, 2021 and January 1, 2021 as restated and the results of operation for CYs 2022 and 2021 are depicted in the charts below:

C. SCOPE OF AUDIT

We conducted an audit of the financial transactions and operations of the District for the year ended December 31, 2022, using risk-based audit approach in accordance with the International Standards of Supreme Audit Institutions and Corporate Government Sector Memorandum dated October 2, 2021 prescribing the General Audit Instructions for the conduct of CY 2022 Audit of Water Districts, and for other matters. We believe that the audit evidence we have obtained is sufficient to provide a basis for our audit opinion. The audit was conducted to (a) ascertain the degree of reliance that may be placed on Management's assertions on the financial statements; (b) recommend agency improvement opportunities; and (c) determine the extent of implementation of prior year's audit recommendations.

D. INDEPENDENT AUDITOR'S REPORT

The Auditor rendered a qualified opinion on the fairness of presentation of the financial statements of the District for the year ended December 31, 2022 because of the significant accounting errors and deficiencies that materially misstated the assets, liabilities and equity accounts in the financial statements, taken as a whole, as follows: (a) overstatement of both Computer Software and Accumulated Amortization-Computer Software accounts by ₱2,058,791 and ₱1,568,538, respectively, due to inclusion of obsolete computer software and misclassification of accounts; (b) understatement of the current liabilities by ₱45,996,556 due to omission to present the current portion of Loans Payable-Domestic account; (c) overstatement of the Guaranty/Security Deposits Payable account and understatement of the Customers' Deposits Payable account by ₱724,100 due erroneous recognition of customers' deposits for new water connection; and (d) overstatement of the non-current liabilities by ₱7,447,859 due to oversight to present the current portion of the Leave Benefits Payable account.

For the above deficiencies, we recommended that the General Manager and/or the responsible personnel perform the following actions:

(a) For Computer Software and Accumulated Amortization-Computer Software accounts, prepare the necessary adjusting entries for the fair presentation of the affected accounts in the Financial Statements; and properly recognize the cost of computer software in accordance with Annex C of COA Circular No. 2020-002 dated January 28, 2020.

(b) For Loans Payable-Domestic account, present both current and non-current portions of Loans Payable-Domestic account in accordance with PAS 1 so that users of the District's FS are not misinformed.

(c) For the Guaranty/Security Deposits Payable account, prepare the necessary journal entries to present fairly the balances of the affected payable accounts in the

financial statements; and properly classify customers' deposits in accordance with Annex C of COA Circular No. 2020-002 dated January 28, 2020

(d) For the Leave Benefits Payable account, present both current and non-current Leave Benefits Payable account in accordance with PAS 1 and 19 so that users of the District's FS are not misinformed.

SUMMARY OF OTHER SIGNIFICANT AUDIT OBSERVATIONS AND RECOMMENDATIONS

The other significant audit observations noted during the audit and the corresponding recommendations are the following:

1. The reported Notes Receivables account in the Financial Statements as at December 31, 2022 amounting to ₱2,091,699 was not assessed for impairment which was not in accordance with Philippine Financial Reporting Standard (PFRS) 9; thus, the account was not presented at net realizable value. Consequently, the reported Income was overstated because of the non-recognition of impairment loss during the year. *(Observation No. 5)*

We recommended that Management, thru the Assistant General Manager, Administration and Finance Group, require the Senior Financial Specialist to (a) calculate Allowance for Impairment–Notes Receivables based on the collectability of the account and evaluation of such factors as aging of the accounts, collection experiences of the District, expected loss experiences and identified doubtful accounts; (b) make the necessary adjusting entries to properly present the net realizable value of the Receivables account in the Financial Statements; and henceforth (c) see to it that financial assets such as Notes Receivable are tested for impairment annually.

2. The District's six motor vehicles costing ₱3,003,398 were acquired without the approval from the Secretary of the Department Public Works and Highways (DPWH) contrary to LWUA Memorandum Circular (MC) 009-13 dated December 10, 2013, re: Implementing Guidelines on the Acquisition and Use of Motor Vehicles by Water Districts. *(Observation No. 6)*

We recommended that Management (a) strictly follow LWUA MC 009-13 dated December 10, 2013, re: Implementing Guidelines on the Acquisition and Use of Motor Vehicles by Water Districts; and (b) submit justification on the failure to seek approval from the DPWH Secretary for the authority to purchase the six motor vehicles costing ₱3,003,398.

F. SUMMARY OF AUDIT SUSPENSIONS, DISALLOWANCES AND CHARGES

The Statement of Audit Suspensions, Disallowances and Charges had a balance of ₱31,298,210 as of December 31, 2022 which pertains to audit disallowances issued from CY 2013 to CY 2020. There were no audit suspensions, disallowances and charges found in the audited transactions of the District for CY 2022.

G. STATUS OF IMPLEMENTATION OF PRIOR YEAR'S UNIMPLEMENTED AUDIT RECOMMENDATIONS

Of the 22 audit recommendations embodied in the CY 2021 Financial Audit Report, 21 were fully implemented and one was not implemented.

PART I - AUDITED FINANCIAL STATEMENTS

REPUBLIC OF THE PHILIPPINES
COMMISSION ON AUDIT
REGIONAL OFFICE NO. III
City of San Fernando, Pampanga

INDEPENDENT AUDITOR'S REPORT

The Board of Directors
Baliwag Water District
Baliwag, Bulacan

Qualified Opinion

We have audited the financial statements of Baliwag Water District which comprise the Statement of Financial Position as at December 31, 2022, and the Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matter described in the *Bases for Qualified Opinion* section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of Baliwag Water District as at December 31, 2022, and its financial performance and its cash flows for the year then ended in accordance with Philippine Financial Reporting Standards (PFRS).

Bases for Qualified Opinion

As presented in Part II of the Report, significant accounting errors and deficiencies on the assets, liabilities and equity accounts may cause misstatement in the financial statements taken as a whole, as follows: (a) overstatement of both Computer Software and Accumulated Amortization-Computer Software accounts by P2,058,791 and P1,568,538, respectively, due to inclusion of obsolete computer software and misclassification of accounts; (b) understatement of the current liabilities by P45,996,556 due to omission to present the current portion of Loans Payable-Domestic account; (c) overstatement of the Guaranty/Security Deposits Payable account and understatement of the Customers' Deposits Payable account by P724,100 due erroneous recognition of customers' deposits for new water connection; and (d) overstatement of the non-current liabilities by P7,447,859 due to the oversight to present the current portion of the Leave Benefits Payable account.

We conducted our audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the District in accordance with the Code of Ethics for Government Auditors together with the ethical requirements that are relevant to our audit of financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a bases for our opinion.

Key Audit Matters

Except for the matters described in the Bases for Qualified Opinion section, we have determined that there are no other key audit matters to communicate in our report.

Responsibilities of Management and those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing the District's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The Management of **Baliwag Water District** is responsible for the preparation of the financial statements as at December 31, 2022, including the additional components attached thereto in accordance with prescribed financial reporting framework indicated therein. The responsibility includes designing and implementing internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error, selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

The Board of Directors reviews and approves the financial statements before such statements are issued to the regulators, creditors and other users.

The Commission on Audit has audited the financial statements of the **Baliwag Water District** in accordance with International Standards of Supreme Audit Institutions and has expressed its opinion on the fairness of presentation upon completion of such audit, in its report to the Board of Directors.

NOTES TO FINANCIAL STATEMENTS

(All amounts are rounded off to the nearest peso)

1. AGENCY INFORMATION AND AUTHORIZATION FOR ISSUE OF THE FINANCIAL STATEMENTS

1.1 Agency Background

The District was created pursuant to Presidential Decree No. 198, otherwise known as the "Local Water Utilities Act of 1973", as amended by PD Nos. 768 and 1479, and by virtue of the Local Sangguniang Bayan Resolution No. 011 series of 1988. On July 6, 1989, the Conditional Certificate of Conformance (CCC) No. 407 was issued by Local Water Utilities Administration (LWUA) to formalize its establishment. This CCC is the accreditation of LWUA to a newly-formed water district to operate under the standard specification.

In 1992, by virtue of the Supreme Court En Banc decision, GR No. 95237-38 (Davao City Water District, et al. vs. CSC et al.), water districts were declared government owned and/or controlled corporation with original charter, and as such they are placed under the jurisdiction of the Civil Service Commission and Commission on Audit.

As of December 31, 2022, the District has 28 pumping stations which serve 27 barangays with 35,696 total active service connections. The District is categorized as Category "A" water district pursuant to the Local Water District Manual on Re-categorization in March 2017.

The District was formed for the purpose of acquiring, installing, improving, maintaining and operating water supply and distribution system for the residents of Baliwag, Bulacan.

As of December 31, 2022, the District's Board of Directors is composed of the following:

Name	Position/Designation	Sector
Ms. Victoria G. Canoza	Chairperson	Professional
Mr. Florido S. Santos	Vice-Chairperson	Business
Ms. Jacqueline D. Samson	Secretary	Civic
Ms. Hazel M. Galang	Member	Women
Mr. Conrado E. Evangelista	Member	Education

Mr. Florido S. Santos was elected as the new Chairperson of the Board of Directors effective February 1, 2023.

The District has 144 permanent employees, eight casual employees, 15 job order personnel and one co-terminus employee under the stewardship of Engr. Ma. Victoria E. Signo as General Manager.

1.2 Authorization for Issue of the 2022 Financial Statements

The financial statements of the District for the year ended December 31, 2022 were authorized for issue by the Board of Directors on January 18, 2023 as reflected in the Statement of Management's Responsibility for Financial Statements signed by the BOD Chairperson.

2. **CHANGES IN ACCOUNTING POLICIES**

2.1 Application of the new capitalization threshold

These financial statements, for the year ended December 31, 2022, are the first time the District has complied with the Commission on Audit (COA) Circular 2022-004 dated May 31, 2022 relative to the increase in capitalization threshold from ₱15,000 to ₱50,000. For periods up to and including the year ended December 31, 2021, the District applied the capitalization threshold of ₱15,000 for all their tangible items

Accordingly, the District has prepared financial statements that comply with ₱50,000 capitalization threshold applicable as at December 31, 2022, together with the comparative period data for the year ended December 31, 2021. In preparing financial statements, the District's opening statement of financial position was prepared as at January 1, 2021. This note explains the principal adjustments made by the District in the application of the new capitalization threshold in all the affected accounts in the financial statements, including the statement of financial position as at January 1, 2021 and the financial statements for the year ended December 31, 2021.

2.2 Effects of the change in accounting policy relative to the new capitalization threshold

On December 31, 2022, the District applied the new capitalization threshold for all their tangible items in compliance with COA Circular 2022-004 dated May 31, 2022.

For issued tangible items acquired prior to CY 2022 with amounts from ₱15,000 to below ₱50,000 previously classified as PPE, the carrying amount shall be expensed/charged to Retained Earnings/(Deficit) while the corresponding accumulated depreciation and accumulated impairment loss shall be closed in the books of accounts, for government corporations classified as Commercial Public Sector Entities (CPSE) like Water Districts.

The District adjusted its PPE to reflect only the items that comply with the ₱50,000 threshold resulting in the reduction of net PPE amounting to ₱3,776,103, ₱173,555 and ₱287,056 for the year beginning 2021, ending 2021 and 2022, respectively. The adjustments for the beginning and end of 2021 were posted directly to Retained Earnings (except the reduction of depreciation expense for the items bought in the current year 2021), and the adjustments for the year 2022 were posted in their appropriate accounts prior to closing entries.

For tangible items acquired prior to CY 2022 with amounts from P15,000 to P50,000 previously classified as PPE which are still in the custody of the Supply and/or Property Division/Unit shall be reclassified to the appropriate semi-expendable property account.

The District reconciliation of equity as of January 1, 2021 (date of transition), is as follows:

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of Financial Statements Presentation

The financial statements of the District have been prepared using historical cost basis. The financial statements are presented in Philippine Peso (₱), which is the District's functional and presentation currency. All values are rounded off to the nearest peso,

except when otherwise indicated. The financial statements were prepared in accordance with generally accepted accounting principles in the Philippines and Philippine Financial Reporting Standards (PFRS).

3.2 Statement of Compliance

The financial statements were prepared in compliance with PFRS, Philippine Accounting Standards (PAS), Philippine Interpretations of International Financial Reporting Interpretations Committee (IFRIC) issued by the Financial Reporting Standards Council and updated Revised Chart of Accounts (RCA) for Government Corporations prescribed in COA Circular No. 2020-002 dated January 28, 2020.

3.3 Summary of Significant Accounting Policies

The significant accounting policies that have been used in the preparation of the District's financial statements are summarized below.

3.3.1 Current versus Noncurrent Classification

The District presents assets and liabilities in the statement of financial position based on current or noncurrent classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when it is:

- Expected to be settled in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The District classifies all other liabilities as noncurrent.

3.3.2 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair

value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the District. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The District uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the District determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the District has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

3.3.3 Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash in bank earns interest at the prevailing bank deposit rates. Cash equivalents are short-term, highly liquid investments that are

readily convertible to known amounts of cash with original maturities of three months or less from dates of acquisition and that are subject to an insignificant risk of change in value.

3.3.4 Financial Instruments

Date of recognition

The District recognizes a financial asset or a financial liability in the statement of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting.

Initial recognition of financial instruments

Financial instruments are initially recognized at fair value, which is the fair value of the consideration given (in case of a financial asset) or received (in case of a financial liability). Except for securities at Fair Value through Profit or Loss (FVPL), the initial measurement of financial instruments includes transaction costs.

Classification

The District classifies its financial instruments in the following categories: financial assets and financial liabilities at FVPL, loans and receivables, held-to-maturity (HTM) investments, available for sale (AFS) financial assets and other financial liabilities. The classification depends on the purpose for which the investments were acquired and whether these are quoted in an active market. Management determines the classification at initial recognition and, where allowed and appropriate, reevaluates this classification at every reporting date.

As at December 31, 2022, the District does not have financial assets and financial liabilities at FVPL, HTM investments, and AFS.

Loans and Receivables

Loans and receivables are financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. These are not entered into with the intention of immediate or short-term resale and are not designated as AFS financial assets or financial assets at FVPL. These are included in current assets if maturity is within twelve months from the reporting date. Otherwise, these are classified as noncurrent assets.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest rate method, less allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortization is included in "Interest income" in profit or loss. The losses arising from impairment of such loans and

receivables are recognized as "Provision for probable losses and doubtful accounts" in profit or loss.

As at December 31, 2022, this category includes the District's Receivables account.

Financial Liabilities Measured at Amortized Cost

These are the financial liabilities which are not designated at FVPL. Financial liabilities not designated as FVPL are measured at amortized cost after initial measurement using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate.

Included in this category are the District's accounts payable, accrued expenses, inter-agency payables, loans payable, other payables and guarantee deposits payable to customers.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. The amortization is included in the interest expense in the District's Statement of Comprehensive Income.

3.3.5 Derecognition of Financial Assets and Financial Liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when:

- The right to receive cash flows from the asset has expired;
- The District retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- The District has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risks and rewards of the asset but has transferred the control of the asset.

When the District has transferred its right to receive cash flows from an asset or has entered into a "pass-through" arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the District's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the District could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired.

When an existing financial liability is replaced by another financial liability from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Loans and receivables

For loans and receivables carried at amortized cost, the District first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the District determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assessed for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized, are not included in a collective assessment for impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through use of an allowance account and the amount of loss is charged to profit or loss. Interest income continues to be recognized based on the original effective interest rate of the asset. Receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

3.3.6 Impairment of Financial Assets

The District assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Objective evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter

bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic condition that correlate with default. For the District's receivables from customers, evidence of impairment may include non-collection of water bills despite of sending series of demand letters to delinquent concessionaires.

As at December 31, 2022, the District has no impaired financial assets.

3.3.7 Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.3.8 Classification of Financial Instruments between Debt and Equity

A financial instrument is classified as debt if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity; or
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the District; or
- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the District does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

3.3.9 Inventories

Inventories are valued at the lower of cost or net realizable value (NRV). Cost is determined using the moving average method.

Inventories are recognized as an expense when deployed for the utilization or consumption in the ordinary course of operations of the District.

3.3.10 Property, Plant and Equipment (PPE)

PPE, except land, are stated at cost less accumulated depreciation and amortization and any impairment in value. Land is stated at cost less any impairment in value.

The initial cost of PPE comprises its purchase price, including import duties, taxes and any directly attributable costs of bringing the PPE to its working condition and location for its intended use, including capitalized borrowing costs incurred during the construction period.

Expenditures incurred after the PPE have been put into operation, such as repairs and maintenance, are normally charged to operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of PPE beyond its originally assessed standard of performance, the expenditures are capitalized as additional cost of the related PPE.

Depreciation and amortization of PPE commences once the PPE are available for use and are calculated on a straight-line basis over the estimated useful lives (EUL) of the PPE as follows:

<u>Category</u>	<u>Number of years</u>
Office furniture and equipment	5
Transportation equipment	7
Machinery and equipment	10
Building and other structures	30

The EUL and depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of PPE.

Fully depreciated PPE are retained in the accounts until they are no longer in use and no further depreciation are charged to current operations.

When PPE is retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and accumulated impairment, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Recognition

An item is recognized as PPE if it meets the characteristics and recognition criteria as a PPE. The characteristics of PPE are as follows:

- Tangible items;
- Are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- Are expected to be used during more than one reporting period.

An item of PPE is recognized as an asset if:

- It is probable that future economic benefits or service potential associated with the item will flow to the entity;
- The cost or fair value of the item can be measured reliably; and
- The cost is at least P50,000.

Measurement at recognition

An item recognized as PPE is measured at cost. Cost includes the following:

- Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- Expenditure that is directly attributable to the acquisition of the items; and
- Initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired, or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Measurement after recognition

After recognition, all PPE are stated at cost less accumulated depreciation and impairment losses.

When significant parts of PPE are required to be replaced at intervals, the District recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major repair/replacement is done, its cost is recognized in the carrying amount of the PPE as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized as expense in surplus or deficit as incurred.

Depreciation

Each part of an item of PPE with a cost that is significant in relation to the total cost of the item is depreciated separately. The depreciation charge for each period is recognized as expense unless it is included in the cost of another asset.

Initial recognition of depreciation

Depreciation of an asset begins when it is available for use such as when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. For simplicity and to avoid proportionate computation, the depreciation is for one month if the PPE is available for use on or before the 15th of the month. However, if the PPE is available for use after the 15th of the month, depreciation is for the succeeding month.

Depreciation method

The straight-line method of depreciation is adopted unless another method is more appropriate for Entity operation.

Estimated useful life

The District uses the life span of PPE prescribed by COA in determining the specific estimated useful life for each asset based on its experience.

Residual value

The District uses a residual value equivalent to at least ten percent (10%) of the cost of the PPE.

Impairment

An asset's carrying amount is written down to its recoverable amount, or recoverable service amount, if the asset's carrying amount is greater than its estimated recoverable amount or recoverable service amount.

Derecognition

The District derecognizes items of PPE and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

3.3.11 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is recognized in the statement of profit or loss when it is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit (CGU) level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

3.3.12 Impairment of Non-Financial Assets

The District assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the District estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. In determining fair value less cost to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other fair value indicators. Impairment losses of continuing operations are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as revaluation increase. After such a reversal, the depreciation and amortization charge are adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

As at December 31, 2022, the District has no reported impaired non-financial assets.

3.3.13 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the District and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

3.3.14 Income from Waterworks System

Water revenue are recognized when the related water services are rendered. Water is billed every month according to the bill cycles of the customers. As a result of bill cycle

cut-off, monthly service revenue earned but not yet billed at end of the month are estimated and accrued. These estimates are based on historical consumption of the customers.

For the period ending December 31, 2022, Income from Waterworks System was classified under Business Income in the Statement of Comprehensive Income.

3.3.15 Fines and Penalties not related to taxes

The District recognizes revenue from fees and fines, except those related to taxes, when earned and the asset recognition criteria are met. Deferred income is recognized instead of revenue if there is a related condition attached that would give rise to a liability to repay the amount.

The District charges fines and penalties to customers when there is a delay in the payment of water bill. A penalty of 10% of the water bill is automatically charged by the Billing and Collection System the day following the due date.

For the period ending December 31, 2022, Fines and Penalties was classified under Business Income in the Statement of Comprehensive Income.

3.3.16 Other Business Income

Other customer related fees such as connection, reconnection and disconnection fees are recognized when these services have been rendered.

3.3.17 Interest Income

Interest income is recognized as it accrues, taking into account the effective yield of the assets.

3.3.18 Cost of Services and Operating Expenses

Cost of services and operating expenses are recognized as they are incurred. Cost and expenses are recognized in the profit or loss when a decrease in future economic benefit related to a decrease of an asset or an increase of a liability has arisen other than distributions to equity participants that can be measured reliably. Cost and expenses are recognized in the profit or loss on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or immediately when expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, cease to qualify, for recognition in the statement of financial position as an asset.

For the period ending December 31, 2022, cost of services and operating expenses includes personnel services, maintenance and other operating expenses, financial expenses and non-cash expenses.

3.3.19 Income Tax

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as of the reporting date.

Deferred tax

Deferred tax is provided, using the liability method, for all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

A deferred tax asset shall be recognized for all deductible temporary differences and operating loss carry forward when it is probable that taxable profit will be available against which the deductible temporary difference can be utilized. (PAS12.24)

Pursuant to Presidential Decree 198, under section 14 - Department of Justice ruling under case no. OSJ-2005-03 states that the Water Districts are exempted from Income tax and only liable to two percent (2%) Franchise Tax on its gross receipts. Recognition of deferred tax is not applicable as stated above.

3.3.20 Provisions and Contingencies

Provisions

A provision is recognized when the District has: (a) a present obligation (legal or constructive) as a result of a past event; (b) it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense. When the District expects a provision to be reimbursed, the reimbursement is not recognized as a separate asset but only when the reimbursement is virtually certain. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

3.3.21 Employee Benefits

The employees of the District are members of the Government Service Insurance System (GSIS), which provides life and retirement insurance coverage. Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees.

The District recognizes the undiscounted amount of short-term employee benefits, like salaries, wages, bonuses, allowance, etc., as expense unless capitalized, and as a liability after deducting the amount paid.

4. SIGNIFICANT ACCOUNTING JUDGEMENT, ESTIMATES AND ASSUMPTIONS

The preparation of the District's financial statements in compliance with PFRS requires Management to make judgments, estimates and assumptions that affect the amounts reported and disclosure in the financial statements and the related notes. Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under circumstances. Actual results could differ from those estimates, and such, will be adjusted accordingly.

The District believes the following represent a summary of these significant judgments, estimates and assumptions, and the related impact and associated risks in the financial statements.

4.1 Judgments

In the process of applying the District's accounting policies, Management has made the following judgments, apart from those involving estimations, which has the most significant effect on the amounts recognized in the financial statements.

Determination of impairment of non-financial asset

The District assesses the impairment of non-financial assets (PPE, other current assets, and other noncurrent assets) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the District considers important which could trigger an impairment review include the following:

- Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of usage of the acquired assets or the strategy for the District's overall business; and
- Significant negative industry or economic trends.

In 2022, the District has not identified any impairment indicator, thus, no impairment was recognized.

4.2 Estimates and Assumptions

Key assumptions concerning the future and other sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

Determination of impairment of receivables

The District reviews its receivables at each reporting date to assess whether provision for doubtful accounts should be recorded in profit or loss. The District maintains an allowance for impairment - accounts receivable based on the results of the individual and collective impairment assessments under PAS 39. Allowance for impairment - accounts receivable is maintained at a level considered adequate to provide for potentially uncollectible receivables. The level of allowance is based on past collection experience and other factors that may affect collectability. These factors include, but not limited to, age and status of receivables, the concessionaire's payment behavior and known market factors. An evaluation of receivables, designed to identify potential charges to the allowance is performed on a continuous basis throughout the year.

The District computes the Allowance for Impairment–Accounts Receivable based on the aging of receivables.

Determination of estimated useful lives of PPE

The useful life of each of the District's item of PPE is estimated based on the period over which the asset is expected to provide economic benefits. Such estimation is based on a collective assessment of similar business, internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any item of PPE would increase the recorded depreciation expense and decrease the carrying value of PPE.

5. NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

Future Charges in Accounting Policies

Pronouncements issued but not yet effective are listed below. The District intends to adopt the following pronouncements when they become effective.

Unless otherwise indicated, the District does not expect that the future adoption of these pronouncements will have a significant impact on its financial statements.

Effective beginning on or after January 1, 2023

Amendments to PAS 1, Presentation of Financial Statements – Classification of Liabilities as Current or Non-current

The amendments clarify paragraphs 69 to 76 of PAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement;
- That a right to defer must exist at the end of the reporting period;
- That classification is unaffected by the likelihood that an entity will exercise its deferral right; and
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The District will perform an assessment of the potential impact of PAS 1.

PFRS 17, Insurance Contracts

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, Insurance Contracts. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach); and
- A simplified approach (the premium allocation approach) mainly for short-duration contracts.

The District will perform an assessment of the potential impact of PFRS 17.

Interpretation with Deferred Effective Date

Amendments to PAS 28, Long-term Interest in Associates and Joint Ventures

The amendments to PAS 28 clarify that entities should account for long-term interests in an associate or joint venture to which the equity method is not applied using PFRS 9. Earlier application of these amendments is permitted.

The amendments are not expected to have any significant impact on the District's financial statements.

Amendments to PFRS 10 and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to as associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3, Business Combinations. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interest in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council postponed the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

6. CASH AND CASH EQUIVALENTS

This account pertains to cash collecting officers, petty cash and cash in bank readily available in the payment of current obligations of the District and not subject to any restriction, contractual or otherwise. This consists of the following balances:

	2022	2021	Jan. 1, 2021 as restated
Cash – Collecting Officers	P687,010	P109,777	P831,852
Petty Cash Fund	50,000	50,000	95,000
Cash in Bank – Local Currency Current Account	19,717,176	12,041,795	21,238,215
Cash in Bank – Local Currency Savings Account	6,778,408	6,775,659	5,786,560
Total Cash and Cash Equivalents	P27,232,594	P18,977,231	P27,951,627

Cash – Collecting Officers includes Gift Certificate payment dated December 29 and 31 amounting to P19,400 and was deposited on January 3, 2023. The balance of Cash in Bank – Local Currency, Current Account includes unreleased checks totaling P1,992,500 which were not reverted as of year-end.

	2022	2021	Jan. 1, 2021 as restated
Advances to Special Disbursing Officer	P0	P0	P77,000
Other Deposits	2,422,495	2,348,904	3,170,711
Other Assets	0	0	3,804,644
Total Other Assets	P2,422,495	P2,348,904	P7,052,355

10. INVESTMENTS IN TIME DEPOSITS – LOCAL CURRENCY

This account is used to recognize authorized placements of cash reserves in local currency with Authorized Government Depository Banks for a period of 91 days or more.

11. PROPERTY, PLANT AND EQUIPMENT (PPE), NET

This includes all properties of relatively permanent character that are used in normal operations of the District. The breakdown of this account is as follows:

Particulars	2022								Grand Total
	Land	Infrastructure Assets	Buildings and Other Structures	Machinery and Equipment	Transportation Equipment	Furniture, Fixtures and Books	Construction in Progress	Other PPE	
<i>Cost</i>									
Balance, Jan. 1	P31,856,792	P177,765,096	P319,649,106	P132,489,420	P31,675,612	P6,236,065	P23,183,357	P189,122	P723,044,570

The following information pertain to the two parcels of land which do not have Transfer Certificate of Title (TCI) as of to date:

1. *Barangay San Jose*

- The lot located in Barangay San Jose, Baliwag, Bulacan was purchased thru installment basis from Mr. Wilfredo L. Santiago;
- A Deed of Conditional Sale was executed by and between the District and Mr. Santiago on October 11, 2012; and
- Among the terms and conditions stated in the Deed of Conditional Sale was that a Deed of Absolute Sale in favor of the District will be executed only when the total amount of ₱2,262,000 had already been fully paid.

2. *Barangay Tibag*

- The Deed of Sale for Barangay Tibag was misplaced and only a subdivision plan was found. The District have already sought the help of the Register of Deeds.

The Management exerts utmost effort to secure the covering TCTs of the above parcels of land to protect the District’s interest and in order to document the absolute ownership thereon.

12. FINANCIAL LIABILITIES

This account includes the current portion of the long-term obligations of the District and amounts payable to the suppliers, as shown below:

	2022	2021	Jan. 1, 2021 as restated
Current			
Accounts Payable	₱6,871,973	₱539,519	₱389,797
Loans Payable – Domestic			
LWUA	0	107,548	3,118,482
LBP	0	17,655,645	17,655,645
PSBank	0	513,837	272,057
DBP	0	2,146,015	0
Total Financial Liabilities – Current	6,871,973	20,962,564	21,435,981
Non-Current			
Loans Payable – Domestic			
LWUA	17,602,528	16,874,095	14,514,087
LBP	68,203,960	68,203,960	85,859,605
Vehicle Loan	277,742	277,742	996,389
DBP	118,521,509	33,466,546	0
Total Financial Liabilities – Non- Current	204,605,739	118,822,343	101,370,081
Total Financial Liabilities	₱211,477,712	₱139,784,907	₱122,806,062

Loans Payable – Domestic represents the long-term obligations of the District, the proceeds of which were used to finance various infrastructures and permanent

improvements in order to meet the demands of the growing clientele. Repayments are made monthly based on the agreed terms and schedule provided in the loan agreement.

13. INTER-AGENCY PAYABLES

This represents contributions due, collections received, amounts withheld for remittance to the following government agencies. Breakdown is shown below:

	2022	2021	Jan. 1, 2021 as restated
Current			
Due to BIR	P2,537,669	P1,943,167	P2,078,742
Due to GSIS	1,488,932	1,464,564	855,978
Due to Pag-IBIG	153,635	157,829	228,590
Due to PhilHealth	173,625	122,239	109,100
Due to NGAs	0	155,051	0
Total Inter-Agency Payables – Current	4,353,861	3,842,850	3,272,410
Non- Current			
Due to LGUs	3,420,845	3,420,845	3,420,845
Total Inter-Agency Payables – Non- Current	3,420,845	3,420,845	3,420,845
Total Inter-Agency Payables	P7,774,706	P7,263,695	P6,693,255

Due to LGUs pertains to the waterworks facilities, transferred by the Municipality of Baliwag, which were managed, operated by and under the control of the District.

14. TRUST LIABILITIES

These are guaranty deposits from supplier and advance payment of water bill by the concessionaires.

	2022	2021	Jan. 1, 2021 as restated
Trust Liabilities	P84,434	P23,803	P27,920
Guaranty/Security Deposits Payable	11,109,108	2,516,435	1,191,822
Customers' Deposits Payable	467,248	257,910	321,879
Total Trust Liabilities	P11,660,790	P2,798,148	P1,541,621

15. PROVISIONS

This account pertains to the undiscounted expected cost of short-term employee benefits in the form of compensated absences. To arrive at the undiscounted expected cost of short-term employee benefit, the total earned vacation and sick leaves of each employee is multiplied by their respective basic monthly salary. The product then is finally multiplied to a constant factor of 0.0481927 as prescribed under Civil Service Memorandum Circular No. 02 s. 2016 promulgated on December 21, 2015

16. OTHER PAYABLES

This account is used to recognize other liabilities not falling under any of the specific payable accounts such as Provident Fund Personal Shares/Loans and payables for the acquisition of land.

17. BUSINESS INCOME

These are the water sales, interest income, penalty charges for late payments and violation, new connection fees and septage fees generated by the District from its concessionaires.

	2022	2021
Waterworks System Fees	₱255,320,292	₱233,598,912
Interest Income	13,657	11,876
Fines and Penalties – Business Income	8,188,465	8,659,237
Other Business Income	25,781,334	11,426,125
Total Business Income	₱289,303,748	₱253,696,150

18. OTHER GAINS

These are proceeds from materials purchased by concessionaires for new water meter connection.

	2022	2021
Gain on Sale of Materials	₱426,200	₱0
Other Gains	133,134	135,547
Total Other Gains	₱559,334	₱135,547

19. OTHER NON-OPERATING INCOME

These are proceeds from sale of unserviceable property, reversal of impairment loss and miscellaneous income of the District.

	2022	2021
Sale of Unserviceable Property	₱0	₱224,072
Miscellaneous Income	141,846	498,500
Total Other Non-Operating Income	₱141,846	₱722,572

20. PERSONNEL SERVICES

	2022	2021
Salaries and Wages	₱56,335,960	₱54,257,672
Other Compensation	27,731,436	30,684,261
Personnel Benefit Contributions	8,151,819	7,397,287
Other Personnel Benefits	5,728,666	7,863,472
Total Personnel Services	₱97,947,881	₱100,202,692

21. MAINTENANCE AND OTHER OPERATING EXPENSES (MOOE)

	2022	2021
Travelling Expenses	₱2,120,159	₱1,081,339
Training Expenses	1,420,641	874,703
Supplies and Materials Expenses	3,893,611	2,966,429
Utility Expenses	2,896,950	2,340,259
Communication Expenses	875,426	820,396
